## BOIL WATER NOTICE RESCINDED

January 8, 2019

On Friday, January 4, 2019, the Texas Commission on Environmental Quality required 439 Water Supply Corporation, PWS ID #0140076, to issue a BOIL WATER NOTICE to inform customers, individuals, or employees located on **FM 439 from Chalk Lane in Belton to 12288 FM 439 in Nolanville**, that due to conditions which occurred January 4, 2019, in the public water system, the water from this public water system was required to be boiled prior to use for drinking water or human consumption purposes.

439 Water Supply Corporation has taken the necessary corrective actions to restore the quality of the water distributed by this public water system used for drinking water or human consumption purposes and has provided TCEQ with laboratory test results that indicate that the water no longer requires boiling prior to use as of January 8, 2019.

If you have questions concerning this matter, you may contact Erron Lowry at 254-613-3100.

We thank you for your patience in this matter.
